Following publication of the original article [1], the authors identified an error in the second equation in the 'Estimating the resistance' section due to a typesetting mistake: 9 should be replaced by 99. The correct equation is given below and the original article has been corrected.

$$R = 100 - 99 \frac{(1 - e^{(-c*HS)})}{(1 - e^{-c})}$$

The publisher apologises to the authors and readers for the inconvenience.
